

DRIVEN BY AIR.

# Aircraft Tyre Inflator

The AFG6A01 is designed to be durable, with an aluminium body and impact absorbing rubber bumper.

Designed for high pressure aircraft tyres, these robust yet lightweight units are available with a calibration of 45 - 300 psi, and offer guaranteed accuracy.

The magnified linear scale is easy to read, whilst the attractive slim line design with ergonomic „2 click action“ trigger makes them comfortable and easy to use. The Aircraft Tyre Inflator Model comes complete with Skydrol corrosion resistant hose assemblies with 8v1 and 12v1 tyre value connectors to suit all aircraft tyre values.

A HORNGROUP COMPANY

## Key Product Features

- Reduced operating costs with fast inflation and deflation rate
- Long life - excellent shock resistance with robust durable design and construction
- High versatility - suitable for indoor and outdoor environments
- Guaranteed accuracy - individual testing, supplied with Calibration Certificate
- Easy fitting and usage
- Skydrol corrosion resistant hose
- Cast aluminium body
- Proven linear spring gauge
- Proven linear gauge display
- Inflation pressure up to 300psi

## Specifications

Reading Accuracy	5 psi
Maximum Inlet Pressure	362.5 psi
Inflation Flow	500 l/min @ 13 bar supply
Inflation Range	0-300 psi
Hose Length	x 2, 2m Skydrol Hose
Tyre Valve Connection	8 v 1 Screw-on and 12 v 1 Screw-on
Calibration	45-300 psi
